PROFESSIONAL SUMMARY

Analytical and detail-oriented professional transitioning into Cybersecurity with a foundational background in Integrated Science and Statistical Analysis. Certified in **Google Cybersecurity** and **AI App Development**, with proven expertise in threat analysis, network security, and risk mitigation. Adept at breaking down complex technical concepts and managing high-pressure environments, gained through years of classroom management and field data collection.

TECHNICAL SKILLS

- **Security:** Threat Analysis, Incident Response, Risk Management, Ethical Hacking, Security Operations.
- **Technical:** Network Security (Firewalls, VPNs, IDS), Python (AI App Development), Data Interpretation.
- **Soft Skills:** Analytical Thinking, Crisis Management, Communication, Ethical Compliance, Adaptability.

CERTIFICATIONS

- **Professional Certificate in Google Cybersecurity**
- **Co.Lab AI App Development Certificate**
- **Bachelor of Science: Integrated Science** – [Abetifi College of Education-UCC] (2018)

RELEVANT EXPERIENCE

Cybersecurity Analyst (Candidate) | *Self-Directed Projects/Training (2025 till now)*

- Developed a foundational understanding of securing computer networks and identifying attack vectors.
- Practiced incident response procedures, including containment and recovery strategies for simulated breaches.
- Conducted threat assessments and studied penetration testing methodologies to proactively identify weaknesses.

Enumerator | *Volunteer Ghana Statistical Service (JUN 2021)-(AUG 2021)*

- Managed sensitive demographic and economic data, adhering to strict **confidentiality protocols** and ethical guidelines.
- Ensured 100% data integrity through meticulous verification and recording processes.

- Navigated complex geographical areas and technical survey tools to meet daily reporting deadlines.

School Teacher | *Ghana Education Service (DEC 2019)-(AUG 2023)*

- Applied **Classroom Management** skills to maintain orderly environments, a direct parallel to maintaining system security protocols.
- Translated complex scientific information into digestible formats, a skill critical for reporting security risks to non-technical stakeholders.
- Solved academic and behavioral challenges through rapid analysis and practical implementation of solutions.

INTERESTS

- **Artificial Intelligence:** Exploring innovative solutions to solve complex security problems.
- **Soccer:** Fostering teamwork and physical/mental engagement to achieve collective goals.
